

Sri Hrushikesh Varma Bhupathiraju

bhupathirajus@ufl.edu | [Google Scholar](#) | [Personal Portfolio](#)

EDUCATION

PhD in Computer Information Science and Engineering | *University of Florida* May 2026
Research Area: Cyber-Physical Systems Security. Advisor: Prof. Sara Rampazzi
MS in Computer Information Science and Engineering | *University of Florida* May 2021
Research Area: Medical Image Analysis. Advisor: Prof. Sanjiv Samant
B.Tech in Electronics and Communications Engineering | *JNTU* May 2019
Research Area: Signal and Image Processing. Advisor: Prof. Sanjay Dubey

RESEARCH AREAS

Cyber-physical system security & privacy, vulnerability exploitation, Autonomous systems, trustworthy AI, attack-aware perception and signal processing, multi-agent systems, critical infrastructure, and the Internet of Everything

RESEARCH EXPERIENCE

Graduate Student Researcher Jan 2021 – Present
Cyber-Physical Systems Security (CPSec) Lab, University of Florida.
Advisor: Prof. Sara Rampazzi

Research Intern May 2025 – Aug 2025
Toyota InfoTech Labs, California
Advisor: Prof. Michael Clifford

Graduate Student Researcher Dec 2020 – Aug 2021
Davis Cancer Research Center, Radiation Oncology, UF Health.
Advisor: Prof. Sanjiv Samant

Graduate Student Assistant May 2020 – Aug 2020
Modern Artificial Intelligence and Learning Technologies Lab, University of Florida.
Advisor: Prof. Sanjay Ranka

TEACHING EXPERIENCE

Cyber-Physical System Security, Graduate Teaching Assistant Fall 2022
CISE Department, University of Florida. Supervisor: Dr. Sara Rampazzi

- Assisted a class of 90 students in a course on Cyber-Physical Systems and Security.
- Provided lectures on physical adversarial example modeling and training, and assisted students in simulating physical adversaries and testing as part of the lecture.
- Received strong positive feedback on Gatorevals, the university course evaluation system.

Digital Signal Processing, Undergraduate Teaching Assistant Spring 2019
ECE Department, BVRIT, JNTU. Supervisor: Dr. Syed Audhagir Umar

- Instructed a class of 60 students, covering fundamental concepts such as denoising and image reconstruction.

- Guided hand-on projects helping students build real-world techniques such as image in-painting and object detection.

ACHIEVEMENTS

- Gator Engineering Award in Professional Excellence, 2026.
- Gartner Group Fellowship Award, University of Florida, 2025.
- Best Paper Award, ACM REP 2025.
- CSAW Applied Research Competition finalist, 2024 (Top 7.5%).
- ETAS Best Short Paper Award, VehicleSec '23.
- DENSO Best Demo Award, VehicleSec '23.
- Student Travel Grant Award, USENIX '23.
- Student Travel Grant Award, ACM WiSec '23.

SERVICES

Program Committee Member

- VehicleSec 2025, 2026.
- Poster and demo sessions, VehicleSec 2025.
